## NEW LARKSPUR SUPREME

*New Larkspur Supreme*

**DARK BLUE SUPREME:**—Here is a truly fine rich violet purple. Dark Blue Supreme is a most vigorous grower, with fully double flowers closely set on stems which grow five feet or more.

**LILAC SUPREME:**—A florists' favorite because of its especially clear color, uniform height, and long well filled flowering spikes closely covered with fully double flowers and large individual florets.

**PINK SUPREME:**—The plants grow very tall, with a particularly long and heavy main spike closely packed with fully double flowers, with very wide petals. Not only is it a new and distinct color, but the extremely tall robust center spikes have depth and body, which is characteristic of these new Supreme Larkspurs. Under artificial light this color really comes to life.

**ROSE SUPREME:**—For the first time we have a clear, pure deep rose in the base branching classification, even clearer and deeper in color than the ever popular Stock Flowered Rosamond. The plants possess good vigor, but are not quite as tall growing as the other colors in this Supreme class. The flower spike is very heavy and will stand any amount of forcing.

**SALMON SUPREME:**—The most desirable and most striking Larkspur we have ever offered, the largest flowering of all Larkspurs, and what a color—a true shade of real salmon, much stronger in color than the salmon pinks now being offered. Flowers are truly gigantic, being fully double and closely packed to form the most magnificent main spike you have ever seen.

**WHITE SUPREME:**—Now here is a real white Larkspur, not the slightest trace of pink can be found in the gigantic broad-petalled flowers, truly as pure as the driven snow. It has lots of height and the magnificent main stem is literally covered with closely placed double flowers for half its height, grows five feet or more in height.

**SUPREME MIXTURE:**—A splendid mixture made from the above colors. Try it this year where your customers want something new and better.

Above varieties: Tr. Pkt., 25c;  $\frac{1}{4}$  oz., 35c; oz., 1.00; lb., 12.00

**Terms:** Thirty days net cash to customers of approved credit or established accounts. New customers, cash with order, C.O.D. or satisfactory references. To avoid delay in shipment, cash should accompany order unless satisfactory credit has been established. Prices in this list are net, postpaid in the U. S. A. and Canada, and subject to change without notice.

If you wish your order sent by air mail, please add 10c per ounce for packing and postage.

**WARRANTY:** We warrant to the extent of the purchase price that seeds or bulbs we sell are as described on the container within recognized tolerances. We give no other or further warranty, express or implied.

## **YOUR BUSINESS AND OUR BUSINESS**

Your reputation as a grower of superior flowers and plants is maintained and furthered when you restrict your seed source to one maintaining an equally high reputation for seed production. In no line of endeavor is quality more essential to success or ultimately more economical than in the choice of seeds. It is the foundation of profitable production of saleable stock.

Murphy Seed Company insists upon furnishing only seed of the highest quality procurable. We closely watch the growing developments of the foremost commercial growers on the Pacific Coast. We sell seeds to many growers who supply the critical Los Angeles market, nationally known for quality standards. Our first-hand knowledge of seed and flower production, our painstaking selection and reselection of seed from the most superior strains, is an integral and priceless part of every order we fill.

## **MARIGOLD • MURPHY'S SPECIAL FLORISTS STRAINS**

### **PRINCE OF ORANGE IMPROVED AND LEMON QUEEN IMPROVED**

These improved Marigolds are just the flowers you growers and florists have been wishing for. They produce over 90 per cent extra large all double flowers. These Marigolds proved to be the best shipping varieties on our Los Angeles Market last year. With pleasure we offer them to you.

Tr. Pkt., 30; ¼ oz. 50c; oz. \$1.50; lb. \$18.00

### **CUTHBERTSON SWEET PEAS**

Exceptionally fine for spring and early summer flowers.

See page 28 for complete list of colors.

This new Aster has been developed and improved by one of the best seed growers in Southern California. The splendid texture of the petals and the tightly crested center make it a superior flower for shipping. The shape and size of the flowers plus their excellent keeping qualities make them very desirable for every use by particular florists. It has taken over eight years to improve these strains and get all colors properly segregated. The early varieties grow from 15 to 24 inches tall and the other varieties from 18 to 30 inches tall. The early varieties are usually about 2 to 3 weeks earlier than the others.

(See page 9 for complete list of colors.)

Calendula Sunshine Chrysantha

PACIFIC BEAUTY CALENDULA—

This new family of Calendula is the result of several years work to produce a strain with uniformly large flowers of better formation, longer and straighter stems, more clear colors, and more resistant to mid-summer heat.

APRICOT BEAUTY — Of an attractive two-toned effect together with large flowers and long stems. It is a far better apricot-colored Calendula than any we have heretofore seen.....

CREAM BEAUTY — The creamy-white shading to soft light yellow makes this the most delicately colored of all Calendulas, and the most distinctive shade combining well with all other colors.....

LEMON BEAUTY — A pure lemon yellow. The long, wide petals give the flowers a much more graceful appearance and the centers are well covered with wide incurving petals. ....

PERSIMMON BEAUTY—Flowers of a true persimmon-orange of unusual brilliance and size, with long graceful petals on tall, vigorous, long stems.....

PACIFIC BEAUTY MIXTURE — A blend of the four varieties described above.....

LARKSPUR

Being a leader in your community means that you always want the newest and best strains of flowers. You will find the following new and proved varieties of Larkspur the cream of the crops, producing large double flowers, closely spaced on long spikes. The first four varieties are very vigorous and grow 5 feet or more in height. Our seeds are carefully grown to give you true and brilliantly colored strains.

Super Majestic Rose Larkspur

SUPER MAJESTICS (NEW)

This Giant Imperial type Larkspur is a stronger grower and especially good under hot and trying conditions.

**SUPER MAJESTIC WHITE**—Large flowering white.

**SUPER MAJESTIC ROSE**—Large double flowers of a pleasing salmon-rose shade.

**SUPER MAJESTIC LAVENDER**—Long spikes and fine stems make this a very outstanding flower.

GIANT IMPERIAL—Base Branching

**BLUE BELL**—Light blue with white base.

**BLUE SPIRE**—Deep Oxford Blue.

**CARMINE KING**—True carmine-rose.

**DAINTINESS**—Delicate lavender, white base.

**EXQUISITE PINK IMPROVED**—Soft salmon-pink.

**LILAC KING NEW**—Clear rich lilac.

**LOS ANGELES IMPROVED**—Soft salmon-rose.

**MISS CALIFORNIA**—Pink shaded salmon.

**PEACH BLOSSOM**—Light Pink.

**PINK KING**—New rich rose.

**WHITE KING NEW**—Best clear white.

Prices all above:  
1/4 oz., 25c; 1 oz., 80c; 1/4 lb., 2.00; 1 lb., 8.00

**MIXED**—Made from separate colors.  
1/4 oz., 25c; 1 oz., 70c; 1/4 lb., \$2.00; 1 lb., \$8.00.

NEW LARKSPUR SUPREME

The plants have an ideal upright habit, with a tremendous central or main flower spike which is formed by a great many fully double large flowers with broad petals closely and well spaced on the stem. In the older varieties of forcing Larkspurs there was too much space between the florets, especially when they were fertilized and forced for market. With us here on the coast, the plants grow vigorously, with an average height of five to six feet when grown outside.

## SWEET PEAS CUTHBERTSON

This is the new type, named in honor of Frank G. Cuthbertson, who was primarily responsible for the development of this important addition to the Sweet Pea family. Chief characteristics are—great vigor, profusion of large fragrant blossoms, extra long stems, clear popular colors, ability to produce out of doors in those sections where heretofore Sweet Peas have been unsuccessful due to hot weather conditions. Ideal type for home gardeners. Under glass they are sown two months later than the **EARLY FLOWERING SPENCER** and will bloom well into late spring. A wonderful Sweet Pea for spring and summer flowers.

Because Zinnias are a very important item for you, much work has been done on them, especially on the California Giants, Dahlia-flowered and Pompon types, to true them as to doubles, color and type. We are pleased to give you these much better and truer types for your critical clientele.

**ZINNIAS** Giant Dahlia Flowered

Plants are of medium height. The flower is built up to resemble a show type or dahlia, hence its name. Our seed is all from reselected stock, very true to color and high percentage of doubles.

## ASTER      FLORIST NEW UPRIGHT SINGLE RAINBOW MIXED (Wilt Resistant).

This new habit in Rainbow Asters perfected for the Los Angeles market and shippers has really reached its height of perfection. Instead of regular branching habit this variety grows perpendicular, providing a fast cutting and bunching aster. Flowers grow very even at the top. Single and often semi-double blooms appear. The mixture contains all the bright, popular aster colors and this year we offer this to our trade as a flower worthy of your attention. **Tr. Pkt., 25c; ¼-oz., 35c; 1-oz., \$1.00; 1b., \$12.00.**

# Felix Pansy

## A BALL INTRO- DUCTION

Uniformly true to type, with well ruffled flowers of good size carried on fairly dwarf plants. Colors are rich and unusual — including purple, apricot and wine shades together with pastel bronzes and smoky tones difficult to describe. Each flower is marked with the dark "whiskers" characteristic of this strain, and the over-all effect is indeed striking. New crop seed available in Aug. **Tr. pkt., \$1.25; 1/8 oz., \$3.00; 1/4 oz., \$5.50; 1 oz., \$16.00.**
